

FAST, SIMPLE AND KNOWLEDGEABLE: EXPERT KNOW-HOW ON CALL

Problems creating the configuration? Questions about verification? Looking for ad-hoc help even though there is no incident? Simply call our experienced Xperts if you need help with routing/switching, optical networks and security.

Not yet a Xantaro customer or don't have a maintenance contract?

No problem. We'll take care of it – with our fast, flexible and efficient Xpert packages.

CHALLENGES

- Growing network complexity, driven by evolving requirements and security regulations, demands bespoke configurations
- Troubleshooting due to configuration changes is often complex and time-consuming for in-house specialists
- Experienced external experts with cross-vendor expertise are not available at short notice
- Limited support from hardware and software providers
- Limited IT resources and budgets

OUR OFFERING

- Short-term access to Xantaro Xperts with many years of experience in the areas:
 - Routing/Switching
 - Optical Transport
 - Security
- Tailored cross-vendor consulting services designed to meet your specific requirements
- Leading expertise on the functionality of new configurations
- Customised service packages available within a few hours

YOUR BENEFITS

- Access to expertise in advanced technology areas
- Short-term problem solving by knowledgeable experts
- Service independent of existing maintenance contracts, even for new customers
- The security of the functionality of new configurations
- Cost efficiency – you only pay for the consulting time you actually use
- Conservation of your resources / focus on your core competences

WHY XANTARO?

- Europe's leading team of network specialists with a total of over 700 certifications
- Cross-vendor Know-how
- Decades of experience in the planning, construction, operation and maintenance of high-performance networks
